

## DJ DIARIES | CHAPTER 1 : My Timeless Weekend

I then headed to Ile Cosmique and played an Afro Latin Tribal House set. After so much digital music the night before, I wanted to give the people some organic melodies to start their day: African and Middle Eastern chants, kora, marimba, Afro Beat guitar, Fela Kuti horns, Latin flutes, percussion, etc... Ironically, after my set there were yoga and meditation classes for a few hours before the music started up again on Ile Cosmique.

We grooved to an amazing electro swing set by [YATIRI](#) who had the crowd nicely warmed up by the time I took the stage. From there on it was sheer pandemonium! Three songs into my set these amazing Blade Runner Unicorn Ladies dressed in wigs, unicorn horns and lingerie climbed up to dance on top of the speakers in front of me and the crowd erupted! Within ten minutes the dancefloor tripled in size, swirling like a maelstrom. It was a Glitch Hop Hootenanny!
